The CARTs that Renee created continue to run. The PRP did NOT approve these. They are misleading. Why can't we have Carts that say what we want them to say? Why are the Carts we objected to still running? Please ask the ED, Lydia Brazon, and the station managers to change this situation immediately.

**Election Inspectors Response: The Election Inspectors Committee is confident that this first round of carts fairly represented arguments on both sides of the issue, based on comments solicited from interested parties.**
