Dear Renee,

See the below email from KPFK [name and title redacted]. If you read it carefully, [name redacted] is just asking people to donate to KPFK. But in this particular time, it can easily be misconstrued by our members as endorsing a 'Yes' vote on the proposed bylaws.

In peace,
Gracie Aaron

Subject: Vote Yes for KPFK, No to Dictatorships
To: <[email address redacted]>

Dear [name redacted],

We need your vote today!

Renewing your membership to KPFK means adding your voice to the growing number of concerned citizens who see our democracy transforming itself right before our very eyes (and ears) into a tragically comical third world country with "strongman" Trump in power.

Our funding comes from the thousands of members like you who give each year to support this singular local community public radio.

Your support makes it possible for us to provide you with reporting on an election that may well be a referendum on our democracy!

We are over halfway to reaching our financial needs, and I'm asking you to stand with KPFK and 2,935 of your friends and neighbors that have helped us already raise $341,230 towards our goals.

Your gift matters, your listening matters, your concerns matter, and democracy matters!

KPFK stands with you as the last genuinely independent public radio station in Los Angeles.

Election Inspectors Response: The “Vote Yes” subject line is regrettable but does not constitute an overt or intentional violation. KPFK is sending out neutral GOTV emails which adequately establish station neutrality.
